Theme- The Human Odyssey

Humans have evolved in fascinating ways—from the tools they use and the language they speak, to their lifestyles and the way they entertain themselves. Prepare a creative and engaging magazine titled “The Human Odyssey” that reflects this journey of change. Your magazine should include the following sections:

1. Featured Article – "Life of an Object"

Write a story from the point of view of an object (e.g., a telephone, pair of shoes, pen, or mirror). Describe how human needs, habits, and technology have changed over time through the life experiences of this object.

Example starter line:

"I was born as a rotary phone in 1962, proudly ringing in drawing rooms. But today, I now watch my touchscreen cousins do all the talking..."

2. Gen Z Slangs and Abbreviations – A New Language?

Collect 10–15 popular Gen Z slangs or abbreviations (e.g., “YOLO,” “FOMO,” “Bet,” “IYKYK”) and write their meanings.

Also, add a small paragraph discussing how human language and expression have evolved with each generation.

3. Interview Across Generations

Interview two people from different generations (e.g., your grandparents and a teenager today) using the same 5–7 questions on topics like communication, daily routine, school life, or entertainment.

Create a comparison table or paragraph showing the similarities and differences in their responses.

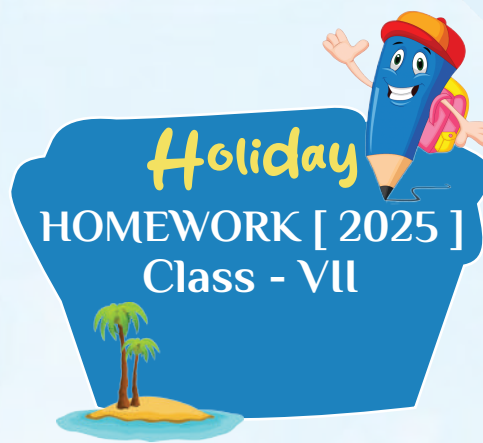

4. Lifestyle Then vs Now

Create a page showing how daily lifestyle habits have changed over time.

You can include changes in:

- Clothing
- Food habits
- Travel
- Schooling
- Family time

Use pictures, small write-ups, or drawings to make it visually engaging.

5. Fun Corner!

Design a fun section that includes at least three of the following:

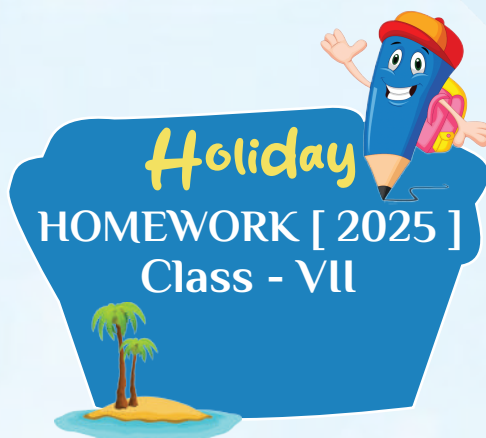

- Crossword
- Riddles or jokes
- Sketches/drawings

Presentation Tips:

- Give your magazine a creative name and cover page.
- You may handwrite or digitally design it.
- Include index, page numbers and section titles.
- Keep your language original, fun, and informative.

You are encouraged to explore the joy of reading through the works of a wonderful storytellers- William Wordsworth and Sarojini Naidu.

TASK - 1

"Exploring the human body's intricate systems can be fascinating! As a Class 7 student, you're about to embark on an exciting project to create models of organ systems. By designing and building models of the digestive, respiratory, or circulatory systems, you'll gain hands-on experience and develop a deeper understanding of how these systems work. Get creative, have fun, and discover the wonders of human biology!"

Create a model and PPT of one of the following organ systems:

(For Roll no 1 to7)

1. Human Digestive System*: Create a model using clay, cardboard, or paper mache, labeling each part (mouth, esophagus, stomach, small intestine, large intestine).

(For Roll no 8 to14)

2. Human Respiratory System*: Make a model using plastic bottles, straws, and clay, showing the lungs, trachea, bronchi, and diaphragm.

(For Roll no 15 to21)

3. Human Circulatory System*: Design a model using pipes, tubes, or straws, illustrating the heart, arteries, veins, and blood vessels.

(For Roll no 22 onwards)

4. Human Excretory System*: Create a model using clay, cardboard, or paper mache, labeling each part (kidneys, ureters, bladder, urethra).

Materials required:

- Clay or play dough
- Cardboard or foam board
